Plate Compactors

## APS1030we Plate Compactor 53kg Battery Powered Skin

The APS1030we is a 53kg battery-powered plate compactor, ideal for eco-friendly compaction of soil, gravel & asphalt. Hassle-free maintenance with our direct drive motor, which eliminates the need for belts or clutches.

- Battery-powered (battery and charger not included) for eco-friendly compaction: Reduces emissions for a greener worksite.
- 53kg weight for efficient compaction: Provides optimal force for a wide range of applications.
- Easy to operate, maneuver, & maintain: Ensures user-friendly operation in various compaction tasks and hassle-free maintenance with our direct drive motor, which eliminates the need for belts or clutches.
- Large water tank for dust suppression: Minimizes dust during operation for improved visibility.
- Ideal for enclosed spaces, trenches, and around buildings: Well-suited for emission-sensitive work environments.

### Specifications

- Model - APS1030we - Skin
- Item No.- 5100058917
- Weight - 53kg
- Operating Width - 300mm
- Force - 10kN

The Wacker Neuson APS1030we is a cordless vibratory plate compactor designed for efficient and environmentally friendly compaction of various materials in construction projects. This 53kg machine is powered by a lithium-ion battery (not included) and delivers strong centrifugal force for effective compaction of soil, gravel, and asphalt applications. It's ideal for emission-free compaction in enclosed spaces, trenches, and around buildings. The APS1030we is easy to operate and maneuver, making it suitable for various compaction tasks. The large water tank allows for dust suppression during operation.
