Plate Compactors

APS1135we Plate Compactor 63kg Battery Powered Skin

The APS1135we is a 63kg, cordless plate compactor for eco-friendly compaction of soil, gravel & asphalt, ideal for tight spaces.

- Battery-powered (battery and charger not included) for eco-friendly compaction: Reduces emissions for a greener worksite.
- 63kg weight for efficient compaction and simple maintenance: Provides optimal force for a variety of applications. With hassle-free maintenance with our direct drive motor, which eliminates the need for belts or clutches.
- Easy to maneuver in tight spaces: Tapered design allows for smooth operation around obstacles.
- Large water tank for dust suppression: Minimizes dust during operation for improved visibility.
- Ideal for foundations, trenches, and enclosed spaces: Well-suited for emission-sensitive environments and hard-to-reach areas.

Specifications

- Model - APS1135we - Skin
- Item No.- 5100059661
- Weight - 63kg
- Operating Width - 350mm
- Force - 11kN

The Wacker Neuson APS1135we is a battery-powered vibratory plate compactor designed for efficient and environmentally friendly compaction, particularly in confined areas. This 63kg machine is powered by a lithium-ion battery (not included) and delivers strong centrifugal force for effective compaction of soil, gravel, and asphalt applications. It's ideal for emission-free compaction around foundations, trenches, and in enclosed spaces. The APS1135we features a tapered bottom and edges for improved maneuverability in tight spaces, and a large water tank for dust suppression during operation.
